# Transform your restroom experience with P-Wave® - a pioneer in urinal deodorising technology.

The Slant6 from P-Wave® is a breakthrough in urinal deodorising, delivering high fragrance power that lasts 30 days while outperforming many other urinal mats. Its angled, splash-free bristle design keeps walls, floors, and trousers dry, providing a cleaner experience all around. P-Wave are working with NHS England to deliver vital cancer awareness messaging in urinals.

We're committed to sustainability, so the Slant6 has a lower plastic content, and contains up to 15% recycled material. It also includes the EcoPure® additive for quicker biodegradation if it reaches landfill.

With beneficial bacteria to deodorise drains, compatibility with waterless urinals and bio blocks, and low VOCs, the Slant6 combines powerful performance with environmental responsibility.

<sup>1</sup>Independent long term biodegradation testing underway to ASTM D 5511 standard. This research shows 80% biodegradation in just five years.

## FEATURES & BENEFITS

Powerful fragrance

Bio-degradable

Anti-splash

Long-lasting

Double-sided design

- Up to 5x more fragrance than competing products and lasts up to 30 days.
- Anti-splash slanted bristle design – keeps surrounding areas dry and odour-free.
- Compatible with both waterless urinals and bio blocks.
- Double-sided anyway up design for correct installation every time.
- Contains Ecopure®<sup>1</sup> for faster biodegradation in landfill and up to 15% recycled content. Made from recyclable EVA.
